BMP Services

BMP Inspections and Annual Certifications

FLPM, Inc. has provided it's clientele with Stormwater BMP inspection and annual certification services since these regulations were implemented in 2007.

As required by regulation, FLPM, Inc. only uses the most qualified and certified Professional Engineers (PEs) to perform the annual certifications.

We have performed inspections and annual certifications for literally hundreds of BMPs statewide.

BMP Maintenance & Monitoring

All FLPM, Inc. staff are highly trained to identify problems or concerns early which, in turn, saves our clients money.

Detailed monitoring reports are available through email and our website utilizing a customized and secure login procedure.

BMP Services

Before

BMP Sediment & Erosion Control

FLPM, Inc. has successfully completed numerous sediment and erosion control projects across North Carolina.

As licensed general contractors, FLPM, Inc. is capable of and has the experience to handle any sedimentation or erosion control issues that may arise no matter what the size of the pond or lake.
